## 2018 BRAZILIAN CALENDAR OF EXHIBITIONS AND FAIRS

The Brazilian Calendar of Exhibitions and Fairs is an official publication of the Federal Government that is issued since 1969 and aims at promoting events from a number of sectors, which highlight the diversity of the Brazilian economy.

The Calendar is jointly organized by the Department of Trade and Services Policies – DECOS, the Commerce and Services Office – SCS, the Ministry of Industry, Foreign Trade, and Services – MDIC, the Trade Promotion and Investment Department (DPR), and the Ministry of Foreign Affairs – MRE. This partnership began with the creation of the Permanent Inter-Ministerial Working Group, established by Ordinance No. 5 of January 11, 2008.

The version of the Brazilian Calendar of Exhibitions and Fairs printed in Portuguese, English, and Spanish is **distributed free of charge** throughout Brazil to event organizers, companies, municipalities, chambers of commerce, entities that represent the private sector, government agencies, convention centers, Consulates, Embassies, and to any individual or legal entity interested in receiving a copy, as available. Outside Brazil, the Calendar is distributed by the Itamaraty Palace, through the Trade Promotion Sections (SECOM) of Brazilian Embassies and Consulates.

The electronic version, also available in the above languages, is available for free consultation and download through Brazil's Exhibition and Fair System ([www.expofeiras.gov.br](http://www.expofeiras.gov.br)) and Invest & Export Brasil ([www.investexportbrasil.gov.br](http://www.investexportbrasil.gov.br)). On these websites, any registered events may be consulted through different filters, including "date", "event name", "industry", and/or "venue". You can also obtain contact information of each event's organizers.

This Calendar does not contemplate all companies or entities that promote events, or all events happening in the Country, and there might be others at the same level of excellence in their achievement, qualification, and reliability. The events listed in this edition have been submitted by their organizers on their own initiative. Therefore, the Federal Government only disseminates the events included in the Calendar, and the companies are responsible for holding such business meetings.

Consequently, all information on the events listed here is the sole and exclusive responsibility of the organizing companies and institutions. Additional information may be obtained on the websites of the events and with their organizers. The addresses and phone numbers of each event's organizers are available at the end of this publication and can also be found at [www.expofeiras.gov.br](http://www.expofeiras.gov.br).

Good hunting!

## INTRODUCTION

The Ministry of Industry, Foreign Trade, and Services – MDIC and the Ministry of Foreign Affairs –MRE publish the Brazilian Calendar of Exhibitions and Fairs, which is an important tool for consultation and promotion of exhibitions, fairs, business congresses, and other business events held in Brazil.

These business events provide great opportunities for businessmen to promote their product and/or service and also enter in contact with their competitors. Moreover, by introducing trends and novelties, they help anticipating consumers' desires and the offer of different sectors of the economy.

In terms of results, the fairs environment enables the direct trade of the exhibited products and services, in addition to the sourcing of new clients and the identification of trading channels. The gathering of several players (producers, suppliers, representatives, and distributors) that form part of the sector's production chain in a single event enables the construction of relationship networks between companies and foster permanent trade, including foreign trade, and also promote the development of new markets.

Year after year, the different types of fairs and exhibitions in Brazil grow in several economic segments, boosting the economy and creating jobs in the Country.

For all the reasons presented, the 2018 Brazilian Calendar of Exhibitions and Fairs is a valuable consultation tool for purchasers, investors, and potential business partners.

Good business to all!
